OPENING

India was never merely land.

It was the courtyard where generations gathered.
The field that carried a family name.
The mango tree planted before a child was born.
The house everybody returned to.
The soil that became inheritance.

Jamin Bazaar carries that feeling of ownership into a new generation
— and it does so through paperwork rather than poetry. Sanctioned
layouts. Verified title. Roads formed to the approved plan. The plot
schedule published before you ever drive out to see it.

THE HOUSE MARK

Property. Prosperity. Legacy.

Four developments · Four districts · One standard of paperwork

CHAPTER I

THE WORLD OF JAMIN

Where Land Becomes Legacy

Jamin Properties plans and sells residential plots in approved layouts across Coimbatore, Erode, Salem and Tiruppur — for families who intend to build, and for investors who intend to hold.

Land is the one purchase where the paperwork matters more than the pitch.

Each development is DTCP sanctioned, the title is checked before anything is offered, and the roads, water and open space are formed to the plan rather than promised for later.

We publish the approval number, the survey numbers, the area statement and the plot-by-plot schedule on every project page — so the checks that matter can be done before anyone spends a morning driving to site.

We would rather say “not published yet” than quote a number we cannot stand behind.

THE FOUR ASSURANCES

01 DTCP APPROVED

Every Jamin layout is sanctioned by the Directorate of Town and Country Planning. The approval number and the sanctioned plan are published on each project page.

02 CLEAR, MARKETABLE TITLE

Title and encumbrance are checked before a single plot is offered, and the documents are on the page to be read.

03 ROADS, WATER, DRAINS

Internal roads formed to the sanctioned width, common water to every plot, storm-water drains and street lighting by the promoter.

04 LOAN ASSISTANCE

Plot purchase loans arranged with leading banks for eligible buyers on approved layouts.

CHAPTER II

DISCOVER INDIA THROUGH LAND

Six Forms of Belonging

A plot, a home, a farm, an estate, a retreat, a coast. Every one of them begins as the same thing — earth with a survey number — and every one of them ends as something a family describes rather than measures.

THE PLOT · THE HOME · THE FARM

The Plot

A blank piece of earth waiting for someone's idea.

This is what Jamin sells today: residential plots inside sanctioned layouts, with boundaries fixed by the approval rather than by a boundary wall someone put up later.

The Home

A place where everyday life becomes memory.

The house comes after the plot, and it comes faster on land that already has formed roads, common water and demarcated boundaries. Built to be built on.

The Farm

Land that works while generations grow around it.

Agricultural and farmland parcels sit inside The Vault rather than the public catalogue — eligibility under state land-use rules is established before anything else happens.

THE ESTATE · THE RETREAT · THE COAST

The Estate

Privacy measured not in square feet, but horizons.

Tea and coffee estates, plantation homes, large private landholdings, historic estates. Handled by The Vault, quietly, and usually before anyone else hears of them.

The Retreat

Mountains, forests, rivers and silence.

Hill estates in the Nilgiris, cabins in Himachal, valley ground in Uttarakhand, forest-edge retreats where cultivation stops and the canopy starts.

The Coast

A door opening toward the sea.

Private beach houses, backwater property in Kerala, beachfront villas, Chennai and the ECR. Coastal land carries its own restrictions; those are settled first, never assumed.

A CITY GIVES YOU
CONVENIENCE.

— — — — —
Land gives you horizon.

III

CHAPTER III

THE DISCOVERY EXPERIENCE

Technology, Shown Like Jewellery

Search by place, project or survey number. Open a layout and walk it plot by plot. Read the approval, the area statement and the conditions printed on the sanctioned plan — then book the morning you drive out.

THE PLATFORM

Everything you would ask on site,
answered before you go.

SEARCH	By place, project or survey number, filtered by district.
LIVE AVAILABILITY	Every plot on the sanctioned plan, with its state as held in our own records.
INTERACTIVE LAYOUT	Tap any plot for its dimensions, facing and road width.
MAPS & SATELLITE	Directions, satellite, street view and 3D — with the pin coordinates published.
PHOTOGRAPHS & VIDEO	Site galleries and walkthrough films, published as work proceeds.
BROCHURES & PLANS	Project brochure, scanned DTCP layout plan and location map — free, no details required.
ENQUIRY & SITE VISIT	Pick a date and a time band; the desk confirms by call before you travel.
ACCOUNT	Shortlist and save developments across visits.

The Jamin platform, across web and mobile. Every figure shown is one the sanctioned documents already carry.

THE STEWARD

MEET JAMINDAR

Your guide through the world of property.

Jamindar sits on every page of the Jamin platform — a conversational assistant for people who would rather describe what they want than operate a filter. Ask which layouts are still open in Salem. Ask what a patta does and does not prove. Ask what the area statement on a sanctioned plan is telling you.

Not a cartoon robot, and not a salesman. The digital equivalent of a trusted estate steward — the one who knows which documents to fetch before the conversation gets serious.

“Show me what is still available in Erode, and tell me what the approval number means.”

BEFORE YOU COMMIT

Plan the purchase with your own figures.

Four calculators sit on the platform, and all four run on numbers you enter. Jamin publishes no rate — so there is no house figure quietly pre-filling the field and flattering the result.

01

EMI CALCULATOR

Estimate the monthly instalment on a plot purchase loan.

02

LOAN ELIGIBILITY

Check the loan amount your income and obligations support.

03

PURCHASE COST

Build the complete cost of buying a plot, not the headline figure.

04

RENTAL YIELD

Estimate the return a holding could produce.

Our sales desk confirms the current rate. We don't publish estimates.

IV

CHAPTER IV

FROM SEARCH TO OWNERSHIP

Drawn as a Survey

Discover, explore, compare, verify, visit, decide, reserve, complete, own. Nine movements — and four stages of work that must already be finished before the first of them is even offered to you.

THE JOURNEY

Nine movements, in one direction.

DISCOVER · EXPLORE

Search by place, project or survey number; open the layout and walk it plot by plot.

COMPARE · VERIFY

Approval number, survey numbers, area statement, encumbrance and the conditions printed on the sanctioned plan.

VISIT · DECIDE

Stand on the plot. Walk the boundaries against the sanctioned plan. Ask the awkward questions. No payment, no obligation.

RESERVE · COMPLETE · OWN

Availability and rate confirmed by the desk, then the sale registered in your name.

THE PLACE YOU ARE FROM

Somewhere your children will say they are from.

A tiled roof, a field running down to the hills, an address the whole family knew by heart. The way back to it is unromantic: four stages, in this order, every time — and nothing is offered for sale before the stage above it is finished and on paper.

01

LAND AND TITLE

We buy only where the chain of title is continuous and the encumbrance is clean.

02

SANCTIONED LAYOUT

The plan goes to the planning authority. Plot boundaries, road widths and open space are fixed by that approval.

03

FORMED ON THE GROUND

Roads laid to the sanctioned width, water and drains run, open space handed to the local body.

04

REGISTERED TO YOU

You see the plot, the plan and the documents, then the sale is registered in your name.

Buy with clarity before you buy with confidence.

SEARCH AND SHORTLIST

Filter by district, purpose and stage; save developments to an account that persists across visits.

READ BEFORE YOU DRIVE

Approval number, survey numbers, area statement and the plot-by-plot schedule are published on the project page.

WALK THE PLAN

The interactive layout shows every plot on the sanctioned drawing and its state in our records — tap one for dimensions, facing and road width.

TAKE THE PAPERS WITH YOU

Somebody is searching for the land you own.

Jamin Bazaar is not an open marketplace, and owners are not asked to post a listing into a crowd. Property is brought to The Vault — the private desk — and placed at the level of visibility the owner chooses.

Sell with discretion, or place a property privately for lease. Where a category carries legal restriction — agricultural land, coastal land, heritage, forest-adjacent — eligibility is established before anything else happens.

Exceptional property doesn't always need a listing. Sometimes it needs the right introduction.

THREE LEVELS OF VISIBILITY

An owner chooses; the system enforces it.

◇ PUBLIC VAULT

Shown to anyone who visits The Vault. Used only where an owner is content to be seen.

◇ PRIVATE VAULT

Held back from the public page and shown to verified clients whose requirement it answers.

◇ OFF-MARKET

Never publicly displayed at all. Visible to authorised Vault administrators, and matched by hand against qualified requirements.

Enquiries, requirements, owner submissions and uploaded documents are held privately for the purpose of handling the request. They are not published, not listed and not sold.

CHAPTER V

THE DEVELOPMENTS

Four Layouts, Plot by Plot

Three currently selling and one completed and handed over — shown in full, because a track record is only worth something if you can inspect it.

JAMIN GARDEN EDAPPADI

JAMIN BAZAAR

THE VAULT

Some properties should never need a for-sale sign.

Exceptional properties. Private opportunities. Personally handled.

THE IDEA

You do not have to find it. You have to describe it.

Most of what The Vault handles is never published — it is held quietly, and moved between people who are already known to us. So instead of a catalogue to search, there is a desk to speak to.

Tell us what you want, and a representative takes it from there. When nothing we hold answers a requirement, the requirement becomes the brief: the desk takes it to owners, lawyers, estate managers and the people who know what is quietly available in a district — and reports back, including when the answer is that it does not exist at the price.

REQUIREMENTS THE DESK RECEIVES

“A private beachfront home near Goa for three months.”

“A coffee estate in Coorg, with an existing residence.”

“A restored heritage property in Rajasthan.”

“A private estate near Ooty, for the family.”

“An orchard within two hours of Bengaluru.”

“A villa I own, leased privately — never publicly advertised.”

Requirements sent to The Vault are never displayed, never listed and never shared with other clients. They are read by the Vault desk and nobody else.

WHAT WE HANDLE

HERITAGE INDIA

Houses that were never allowed to fall.

Havelis, Chettinad mansions, colonial and plantation bungalows, courtyard homes, palace-style residences. These rarely reach a portal — they change hands through families, lawyers and long conversations, which is the way The Vault works anyway.

VAULT BESPOKE SEARCH

TELL US WHAT YOU CANNOT FIND.

We begin where ordinary property searches end.

Location, landscape, architecture, privacy, acreage, budget, intended use — whatever matters to you is what we work from. The desk reports back either way, including when the answer is that it does not exist at the price.

SUBMIT A PRIVATE
REQUIREMENT

OFFER TO THE
VAULT

Beautiful land deserves boring paperwork.

We believe the paperwork should be taken as seriously as the property.

Approval details are published as recorded in the sanctioned documents — and every project page says plainly that the current position should be verified with the issuing authority before you commit to a purchase.

Property information in The Vault is provided by owners and is presented for discussion, not as a representation of fact. Jamin Bazaar does not describe an asset as legally verified because an owner uploaded documents.

Where a property is marked Vault Verified, that refers only to the checks Jamin has completed and named.

QUESTIONS THE DESK IS ASKED

DO I HAVE TO BROWSE LISTINGS?

No. The Vault works the other way round. Tell us what you are looking for and a representative takes it from there.

WILL MY ENQUIRY BE PUBLIC?

No. Requirements are never displayed, never listed and never shared with other clients.

IS A PROPERTY IN THE VAULT LEGALLY VERIFIED?

Only where we say so, and only for the checks actually completed. A property an owner has documented is not the same as a property Jamin has reviewed, and the two are never presented as if they were.

AGRICULTURAL, HERITAGE OR COASTAL PROPERTY?

Yes — and those are exactly the categories where eligibility matters most. Rules vary by state, by buyer status and by classification. We tell you what applies before you commit to anything.

The property you don't buy can be as important as the one you do.
